Focus and Scope:

EcoSync Journal, the journal of Economic Synchronization, is dedicated to the integration and synchronization of key concepts in economics, finance, management, business, tax, and financial statements. The journal serves as a platform to bring together knowledge and understanding among these various disciplines, encouraging cross-disciplinary thinking and a holistic approach to economic and business issues.

Economics: EcoSync Journal presents the latest research in economics, covering both micro and macroeconomic aspects.

Understanding market dynamics, consumer behavior, and changes in the global economy is a major focus.

Finance: Exploration of financial aspects involves portfolio analysis, financial risk management, corporate financial policy, and integration with taxes.

The journal also discusses financial technology innovations and global financial market trends.

Management: Focus on business and organizational management, covering business strategy, leadership, and organizational development. Aims to understand how effective management can support the long-term success of an entity.

Business: EcoSync Journal pays special attention to aspects of business, including entrepreneurship, product development, marketing strategy, and the impact of business decisions on financial balance.

Tax: The emphasis on taxes illustrates the impact of tax policy on economic and business activity.

The discussion includes tax planning, compliance, and the development of tax regulations.

Financial Statements: The scope of financial statements includes analysis of financial statements, accounting principles, and communication of financial information to stakeholders.

Exploration of the relationship of financial reporting with economic and business decision making.
